**Lovells Home
Extension News**

On Wednesday, June 19, the Lovells Home Extension Study Group gave an Hawaiian luncheon at the women's clubhouse in Lovells. There were 37 members present, and Mrs. Albert Pierce greeted the guests at the door and wished each "Aloha" while presenting her with a pompon for her hair. The luncheon, an all-Hawaiian cuisine, was prepared by the group members and served buffet style. Each member wore a mumu.

The door prize was won by Mrs. May Porter, and second prize by Mrs. Feen McCann. The grass skirt and lei were won by Mrs. Stewart. Thanks go to everyone who worked and helped to make the affair such a success, with special thanks to Mrs. Josephine Mercurio who kindly loaned her authentic Hawaiian decorations and recipes, also several of her mums, and to Mrs. Feen McCann and Mrs. William Laurie who helped with the serving and cleanup.

**Report on State
Police Check Lane, April**

During the month of April the Michigan State Police Check Lane team assigned to the 7th District inspected a total of 1128 vehicles and passed only 20.8 percent of the vehicles.

Of the 79.2 percent that failed the inspection 94.4 percent had improper lights which included headlight aim and output, turn signals, license plate lights, tail lights and stop lights. Other major reasons for failing the inspection were defective washers, defective wipers, noisy mufflers, poor tires and defective emergency brakes.

Four percent of the vehicles checked still did not have an outside mirror which is required on all vehicles operated on the highways in Michigan.

Motorists are reminded that to receive a state police inspection sticker they must have their vehicle checked by the check lane team and their vehicle must pass.

Grayling, Michigan — Thursday, June 27, 1938

"Social Security"

By mailing 10 cents to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C., anyone may obtain a copy of a booklet on "Recent Improvements in Your Social Security." For another 10 cents, a copy of another booklet entitled, "Recent Improvements in Medicare" may be obtained from the same source. The pamphlets explain rules of eligibility and current benefits under Social Security Amendments of 1935. They answer many questions that will be as more and more people become increasingly dependent on government payments and benefits kind or another.

Naturally, the pamphlets fail to point out that "social security" has become an extremely relative one for everyone — relative to inflation and declining value of the dollar as well as to the changing rules and regulations of government administrators. No one in his right mind would attempt to guess what "social security" will mean in ten or twenty years from now. No one even with certainty whether the dollar will be an able medium of exchange. When it comes to "security," government programs may help, but they will never take the place of individual thrift and a sense of individual responsibility.

Procedure

The notary public or other officer administering the oath shall sign his name on the line for the signature of the registration officer and designate his title.

Unregistered Persons Not Entitled to Vote

SEC. 481. The inspectors of election at any election or primary election in this State, or in any District, County, Township, City or Village thereof, shall not receive the vote of any person whose name is not registered in the registration book of the Township, Ward or Precinct in which he offers to vote. (As provided under Act. 116, P.A. 1954).

SEC. 506. Any registered elector may upon change of residence within the Township, City or Village, cause his registration to be transferred to his new address by sending to the Clerk a signed request, stating his present address, the date he moved thereto, and the address from which he was last registered, or by applying in person for a transfer. The Clerk shall strike through the last address, ward and precinct number and record the new address, ward and precinct number on the original and duplicate registration cards, and shall place the original registration card in proper precinct file. Attend The Church Of Your Choice

FROM SEA TO SHINING SEA

THE CHURCH FOR ALL... ALL FOR THE CHURCH... The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend church regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

THUNDERSTORM
 This photo by the Environmental Science Services Administration (ESSA) shows why lightning, always present in a thunderstorm, is the thunderstorm's worst killer. This spectacular cloud-to-ground discharge injures and kills more people each year than tornadoes and hurricanes together. Meteorologists of ESSA (U.S. Department of Commerce) keep a round-the-clock watch on thunderstorms and offer safety rules for citizens protection.

I

BET

YOU

DIDN'T

KNOW

By Bill Schoor

I bet you didn't know . . . that getting regular service on your car at Schoor Motors can actually save you money in the long run. It's true, preventive maintenance by factory trained mechanics using original factory parts is cheaper for you and better for your car. See Bill today!

Here's a baseball riddle you can have some fun with . . . How can a team get three triples and three singles in one inning, and still not score a run? . . . Answer: First two men triple and are out at the plate trying for an inside - the - part homer . . . Next man triples and stays at third . . . Next two men get infield singles with the runner holding third . . . Last man smacks a ground ball that hits runner going from first to second . . . Batter gets credit for a hit, but runner is out, making three triples, three singles, three outs . . . and no run!

Did you know there used to be big league baseball teams with the nicknames of "Soldiers," "Bees" and "Blue Jays"? . . . Do you know which team had these names? "Soldiers" was the early nickname for Cleveland's team . . . The Braves were known as "Bees" in the 1890's . . . And the Phillies changed their name to "Blue Jays" at one time in the 1840's.

TRIBUTE TO SISTER JANICE

As most of the community must know, Sister Mary Janice, Administrator of Mercy Hospital for the last six years, will be leaving her duties here for a new assignment at St. Lawrence Hospital in Lansing as of July 1.

Her leaving will be a great loss to this community not only for her work as administrator but for all the expanding that has been done to take care of our sick ones and for all the expanding that will be done in the near future for greater capacity and better care of patients.

Also for all her kind acts to the people of Grayling and for her outside achievements to help make our town a more prosperous and thriving community to live in. She will be missed by all of us and may her new assignment bring her many new friendships as she has made here in the past six years.

determine the present land use and condition of the river banks. Recommendations based on this study will be made by the council, which if carried out will improve the river.

On one stretch of the river already studied 90 percent of the home owners had cleared away most of the trees and low growing shrubs that might give shade to the trout waters. It was also observed that many stream banks were eroding and contributing a load of sand to the river during each heavy rain.

The conditions will be brought to the attention of the property owners for corrective measures.

Some spots were eroded because they were access points to the river. It may be necessary for the property owner to close the access off to public use. Other areas are in need of planting with vegetation to stabilize the bank and protect it from wind and rain.

It might well be necessary for the Conservation Department to have more access points to the river so they can have better control of erosion at access points. Litter was also a problem at the access points.

State Police to Have Extra Patrols for 4th of July Weekend

With July 4 weekend activities pushing Michigan traffic volume toward high summer levels, State Police patrols again will devote special attention to high risk load areas and hours in efforts to minimize accident potential during the holiday period.

The patrols will be in force from noon Wednesday, July 3, to midnight Sunday, July 7, providing maximum coverage from 3 to at least 9 p.m. daily when traffic volumes are expected to be heaviest. Special consideration will be given to highway sections having had accident experience.

State Police aircraft, weather permitting, and motor vehicle inspection personnel also will participate in the holiday patrols.

Davidson urged motorists to be particularly vigilant of their speed rates and of the spacing of their cars in traffic. Excessive speed and lack of safe maneuvering room are factors frequently involved in holiday accidents, he noted.

"There is a direct correlation between the frequency of traffic accidents of all kinds and traffic violations. That's why motorists should be extra attentive to safety rules when traffic is congested. Don't let a driving misue on your part get you involved in a holiday highway mishap," Davidson stressed.

There should be similar concern for safety precautions by those persons who will be taking part in water sports, such as swimming, boating, water skiing, scuba diving and fishing, he added.

Davidson said 34 persons were killed in Michigan July 4 weekend traffic accidents last year and another 10 died in water mishaps.

BITS O' TALK

Mr. and Mrs. Herman Bischoff of Grosse Pointe purchased the 12-hour house at the corner of Rose and Lake Sts. which was the object of an open house last weekend. Mrs. Bischoff is sister to Ann Cariveau. They plan to move here soon.

ture questions, and questions relative to how far it is to certain bridges and pull-out points.

Next in the deputy's line of duty is the protection of property along the river, the enforcement of trespass laws, litter laws, nuisance laws, and the problem of minors drinking. There is a very small minority of canoeists who attempt to use the recreational activity of canoeing as a means of all-day and night beer parties. Sheriff Art Clough, his deputies and Justice of the Peace Olin Williamson have no patience with this minority and with jail terms and fines, this activity is rapidly disappearing from this region.

The patrol deputies are well versed in first aid and can amply take care of the cuts and bruises that they are occasionally called on to do. They will also lend a hand with more serious cases. Regular radio contact will bring ambulances and medical help to points on the river system when and where it is needed.

Regular night patrols to the many campgrounds on the river banks is also a duty of the canoeing deputy. Here they give information and help when it is needed. They also take care of the few individuals who might try to make life miserable for their neighbor campers. A friendly word of advice from the deputy, "to have fun but remember to respect the rights of others," usually brings the matter under control.

With files filled with canoeing inquiries from individuals and groups from all over the Midwest, the Grayling Regional Chamber of Commerce estimates that canoeing activity will increase by 15 percent this summer. The past several years have seen yearly increases of from 10 percent to 12 percent. Sheriff Art Clough is ready for the canoeists this year, and has already planned to augment his force and equipment next year to take care of the thousands of persons who are using the miles of canoeing trails to head back to nature on the waters of the AuSable and Upper Manistee Rivers.

been located in all parts of the State, including the Upper Peninsula. Large cities have not been visited in industrial tours since most have industrial development personnel on their staff.

The professional industrial team included: Harold M. Davis, member of the Society of Industrial Realtors B. M. Conboy, John P. Kavanagh, William Jochran, William Boyd, Jr. and Ross Lowe of the Office of Economic Expansion; Robert O. Baker, Michigan Employment Security Commission; Robert L. Gage, Michigan Consolidated Gas Company; Wilbur M. Young and George Lloyd of Detroit Edison Company; George H. Hillman and Vern A. Anderson of Consumers Power Company; and Thomas L. Diak of the Chesapeake and Ohio Railway Company; and James L. Collison of the East Central Michigan E.D.A. district. Mr. Boyd served as tour coordinator.

The team in each community inspected the central business district, commercial areas, industrial sites, schools, public facilities, recreational areas and typical residential neighborhoods. Following the tour, the group held a conference to analyze their findings and comment on steps which might add to the industrial appeal of the area.
